Progressive™

EMERGENCY PHYSICIANS

About us

Progressive is an emergency medicine solutions company that provides management, staffing and consulting services for hospital emergency departments. We are uniquely positioned and prepared to provide our valued partners and patients with the best care possible

Founded and headquartered in New York, Progressive is positioned to provide you with the customized services that truly matter to your Institution. Our leadership team has extensive knowledge and experience and is keenly aware of the current issues that hospitals and their emergency departments face.

Our ownership structure drives a culture of alignment with your hospital's needs as we craft customized solutions for your institution. Together we can achieve and sustain measurable and significant results.

The Progressive Advantage

Our unique ownership model drives a culture of physician engagement necessary to meet the evolving demands of today's healthcare environment.

Combining clinical, operational and financial excellence - we deliver best in class care and economic performance.

We fervently believe our most important partners are the hospitals and patients we serve.

Physician Engagement & Aligned Incentives

We understand that exploring a transition in your emergency department is a difficult and disruptive endeavor. An optimized ED is critical to the operational and financial performance of your hospital. We will create a collaborative transition plan with your leadership, engaging your current providers, nursing, the medical staff and support services to minimize disruption and deliver an integrated and aligned acute care service line that will deliver the highest levels of clinical care, patient and staff satisfaction and economic performance.
